

Louis J. Russo Jr., D.D.S., P.A.

Jonathan L. Nicozisis, D.M.D., M.S.

Orthodontics

DID YOU KNOW?

For the last four years our office has been and continues to help **Align Technology** conduct ongoing clinical research to help advance their new product innovations. Such innovations include **Invisalign Teen** and **Invisalign G3**, released in the fall 2010.

Dr. Nicozisis is a faculty member of **Invisalign's National Speaker's Bureau** and has lectured at their National Orthodontic meetings in 2007, 2008, 2009 and 2010. In June 2009, he presented at their European meeting. In 2011, he is scheduled to speak throughout the country again.

Please ask Drs. Russo or Nicozisis about some of the other benefits **Invisalign** therapy has to offer to both teenagers and adults.
